

COMPANY ENVIRONMENTAL POLICY STATEMENT

It is the policy of AF Switchgear Ltd and AF Fabrications Ltd to provide a first class service to our customers whilst minimising the effects of our business activities on the environment.

The policy includes a commitment to:

- Develop supporting systems to manage our environmental impact
- Protect the environment and the community by preventing pollution
- Reducing our impact in the environment where possible focusing on CO2 emissions and waste
- Set and review environmental objectives and targets which relate to our activities, products and services
- Designing, producing and installing products in a safe and environmental protective manner
- Communicating our environmental message to our employees and other interested parties
- Providing the necessary information, advice, training and support to meet applicable standards, regulations, duties and controls
- Support and encourage employees in developing and implementing working practices which reduce impact on the environment
- Meet compliance with current relevant legislation, codes of practice, and other appropriate guidance, developing best practice by a process of continual improvement
- Handle raw materials and by-products and waste responsibly
- Develop and consider ways of reducing the environmental impact of existing and proposed activities
